

# Discover The New SmartPak Banner Case. Light-Years Ahead Of Anything Else.

SmartPak has just raised the bar for lighted banner displays. The SmartPak Banner Case is designed with a molded high-density foam compartment in the lid to store and protect the LumaStar Halogen Light, power cord and spare bulb. Imagine having the convenience of a banner display *and* lighting system combined in one molded case. Our innovative longitudinal arched handle and clip-on shoulder strap provide the user with easy transport options. Durability, ease of use, striking design and detail combine in this exciting product from EXPOGO!

With every EXPOGO! product, you will get fantastic customer support and our three year warranty that protects against any manufactureres defects and defaults.

Also available for private labeling. Weighing only 5lbs, the inside dimensions are 35" x 5" x 5" with light stored or 39" x 5.25" x 5.5" without.
