

Pactiva™

Compact Tabletop Display
visit www.prezenta.com

Set Up

1 Open Pactiva case and unpack header bars, fabric panels and light bar.

2 Unfold fabric panel sections and prepare to stack the 2 sections.

3 Stack panels using stacking guides at the top of lower section. Spread out panels on tabletop.

4 Form header frame using white bars with snap clips (insert). Apply bars to header graphic on magnet side.

5 Angle center panel back and outside panels forward to support display. Attach light bar (insert). Hang header from top using hooks on support bar.

6 Display is set up and ready for graphics.
